Portfolio: <https://ruely.github.io/portfolio/>

CAREER OBJECTIVE

To contribute over seven years of web and mobile development experience to building reliable payment, transportation, parking, and enterprise applications. I aim to apply my skills in Flutter, React, PHP, and system integration throughout the development process, working with a team to solve business problems and improve the user experience.

PROFESSIONAL EXPERIENCE

Clever Minds Digital Solutions Inc.

2022 – Present

Web & Mobile Developer · Bacolod City, Philippines

- Led development of LuvPark for real-time parking availability, reservations, online payments, and operational monitoring.
- Built LuvPark Ops and the Flutter POS app with vehicle check-in and exit, QR ticketing, Bluetooth receipt printing, offline SQLite storage, and background synchronization.
- Rebuilt the LuvPark Web Portal in React and TypeScript for branch dashboards, terminal and rate management, sales reports, X/Z readings, and PDF exports.
- Developed guest parking checkout with Maya integration, plate lookup or QR scanning, computed fees, exit QR codes, PDF invoices, and emailed receipts.
- Built LuvFare, LuvPay, and LuvRegistration, and integrated GPS tracking and dispatch features for towing and transport operations.

ZettaSolutions Inc.

2019 – 2022

Web & Mobile Developer · Mandaue City, Philippines

- Developed ZFare automated fare collection, ZPay Wallet QR payments, and ZLoad wallet top-ups for public transportation.
- Built and maintained customer relationship, human capital, and fleet management systems (CRM, HCM, and FMIS).
- Created Lear engineering tools used in North America, Europe, and Asia: Benchmarking for 50+ vehicles, Trend Tool for parts analysis, and Material Tracking for orders and shipment alerts.

Litecloud Corporation

2017 – 2019

Web Developer Intern · Cebu City, Philippines

- Developed and supported CFUND for non-profit fund accounting, PEMASYS for payroll and timekeeping, and BUILDYX for team and task management.

FREELANCE AND THESIS PROJECTS

ConstructTrack

Flutter construction monitoring app with role-based dashboards, GPS attendance, geotagged site reports, task progress, material requests, approvals, warehouse stock, and PDF reports. Built with Riverpod, Hive, Firebase, PHP, and MySQL.

Health Services Management (HSM)

Barangay health records and information system with data analytics and reporting dashboards using Flutter, Firebase, and amCharts.

Patient Assistance and Event Management System

Mobile patient records, visits, and follow-ups for clinicians. Web event scheduling and attendee management using PHP, MySQL, JavaScript, and Bootstrap.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, PHP, Dart, Java, C#, C++, Python.

Web: React, Next.js, AngularJS, HTML, CSS, Tailwind CSS, Bootstrap, jQuery, Three.js, amCharts.

Mobile: Flutter, React Native, Cordova. Backend: Node.js, Express.js, Laravel, FastAPI.

Data: MySQL, PostgreSQL, Oracle PL/SQL, MS SQL Server, MongoDB, SQLite, Supabase, Firebase, JSON, XML.

Integration: REST APIs, payment gateways, QR scanning, GPS, Bluetooth ESC/POS printing, offline storage, and background synchronization.

Tools: Git, GitHub, GitLab, Docker, Postman, Vercel, Railway, Figma, Jira, Trello, cPanel, XAMPP, FileZilla, TortoiseSVN, OneSignal, VS Code, Visual Studio, Android Studio, Xcode.

AI tools: Claude Code, Claude, ChatGPT, Codex, Gemini, GitHub Copilot, Cursor, Windsurf.

EDUCATION

CITE Technical Institute Inc. · Cebu City, Philippines

Computer Engineering Technology · Undergraduate, 2019

San Agustin National High School · Madridejos, Philippines

Secondary Education · Completed 2016

Tamiao Integrated School · Bantayan, Philippines

Primary Education · Completed 2008

AWARDS

Punctuality Award · CMDS Inc. · December 2023

Math Quiz Bowl Champion · CITE Technical Institute · October 2016

Batch Salutatorian, Best in Economics, and Leadership Award

San Agustin National High School · April 2016
