Bantayan, Cebu, Philippines 6052

Education

- **CITE Technical Institute Inc.**
Cebu City, Philippines 6000
Computer Engineering Technology
Under grad in 2019
- **San Agustin National High School**
Madridejos, Philippines 6053
Secondary Education
Completed in 2016
- **Tamiao Integrated School**
Bantayan, Philippines 6052
Primary Education
Completed in 2008

Awards

April 2016 | San Agustin NHS

- **Batch Salutatorian**
- **Best in Economics**
- **Leadership Award**

Oct 2016 | CITE Technical Institute
Math quiz bowl champion

Dec 2023 | CMDS Inc.
Punctuality Award

Profile

Results-driven Web and Mobile Developer with over 7 years of experience designing, developing, and maintaining scalable applications across web and mobile platforms. Experienced in building payment systems, automated fare collection systems (AFCS), parking management solutions, and enterprise systems used locally. Strong background in full-cycle development, system integration, and collaborative team environments. Adept at delivering reliable, user-focused solutions under pressure while continuously learning new technologies to support business growth.

Experience

Web & Mobile Developer

2022 – Present

Clever Minds Digital Solutions Inc.

Bacolod City, Philippines 6100

- Developed mobile applications for parking management, POS, AFCS, GPS tracking, and digital payments.
- Led development of luvpark, a real-time parking reservation and monitoring system for city operations.
- Built luvfare (AFCS) and luvpay to improve fare collection accuracy and user convenience.
- Integrated GPS and dispatch features supporting towing and transport operations.

Web & Mobile Developer

2019 – 2022

ZettaSolutions Inc.

Mandaue City, Philippines 6014

- Built web and mobile systems for transportation, fintech, and enterprise use.
- Developed QR-based payment wallet and AFCS solutions used in public transport.
- Created engineering tools used by teams in North America, Europe, and Asia.
- Worked with CRM, HCM, and fleet management systems.

Web Developer Intern

2017 – 2019

Litecloud Corporation

Cebu City, Philippines 6000

- Developed and supported accounting, payroll, and task management web systems.
- Assisted in building applications for non-profit and enterprise use.

CAREER OBJECTIVE

Seeking another opportunity to gain more experience, work on new projects, collaborate with teammates, and satisfy customers. I have faced and overcome various challenges and pressures while completing projects. I am eager to contribute my skills to the company's growth.

EMPLOYMENT

Cebu, Philippines	Litecloud Corporation	2017 - 2019
WEB DEVELOPER (INTERN)		

- Web Apps Local Development
 - a. CFUND - a system of accounting used by non-profit entities to track the amount of cash assigned to different purposes and the usage of that cash.
 - b. BUILDYX – a system that build and manages a team to accomplish task.
 - c. PEMASYS - a system that calculates employee salaries and taxes, tracks hours worked, and issues payments through direct deposit or check.

Cebu, Philippines	ZettaSolutions, Inc.	2019 - 2022
WEB & MOBILE DEVELOPER		

- Web and Mobile Apps
 - a. Local Development
 - ZPay Wallet - uses Quick Response (QR) Technology to pay for fare.
 - ZFare - an Automated Fare Collection System (AFCS) for modern public utility vehicles.
 - ZLoad - a loading app to load credits to ZPay Wallet.
 - CRM - A system helps company's stay connected to customers, streamline processes, and improve profitability
 - HCM - is a software application used to store employee information and support various human resource functions, such as benefits, payroll, recruiting, training, etc.

- AFCS - system is the collection of components that automate the ticketing system of a public transportation network - an automated version of manual fare collection.
 - FMIS - track vehicle asset records, maintenance history, mileage, and many other fleet management details are important management tools that are used extensively in the commercial fleet sector.
- b. Lear Philippines Engineering Branch on projects that are used by Lear engineers in North America, Europe and Asia. The following projects are:
- **Benchmarking Year: 2021**
 - Gathering of Electrical and Mechanical part more than 50 vehicles and counting to compare multiple vehicles depending on criteria given such as vehicle type, model year and even parts.

- This application helps engineers in decision making so that the company can produce a high quality with lower cost on development based on materials availability and usage.
- **Trend Tool Year: 2021**
 - Create dynamic criteria based on gathered data from Benchmarking database and generate trends on Electrical and Mechanical parts.
- **Material Tracking Year: 2020**
 - Database that tracks customer orders. The application has the capability to alert project team of up-coming orders that must be shipped to customers.

Bacolod, Philippines	GC & C Group of Companies	2022 - Current
WEB & MOBILE DEVELOPER		

- Mobile Apps Local Development
 - a. ParkSpace – a parking management solution that allow drivers to quickly find available parking spots, reserve them in advance and make payments online which the City officials can view in real-time.
